

Isle of Wight Randonnee 2017

The Rediweld Cycle Team completed their hefty 55km Isle of Wight Randonnee, and we couldn't be more proud of them! The cycle took place on Sunday 30th April 2017 and was a reasonable day for the team until an onset of deluge between Newport and Wootton, but this didn't stop them and they ploughed on through to complete in roughly 4 hours, not without some well earned refreshments and cakes along the way.

Jeanette was proudly raising money for the Epilepsy Society in honour of a dear friend and has done tremendously well raising over £500 for them; the mascot of the Owl Mandy was ever present around the course.

Other members of the team were riding as a way of putting themselves to the test and overcoming the challenges, which they all did!

The team have some more cycles planned in the coming months so stay tuned to our social media for updates!
