

Quality Policy

The prime quality objective of Rediweld Traffic Products Limited is to meet and exceed customer expectations, for all products and services supplied by the Company.

In order to achieve this objective, the company operates a comprehensive documented Quality System, which complies with the requirements of ISO 9001:2015.

The Company recognises that only through the commitment and participation of the workforce at all levels can the Quality Management System be effective. Therefore, the need for dedication to, and full involvement with quality is conveyed to all employees by the Leadership team.

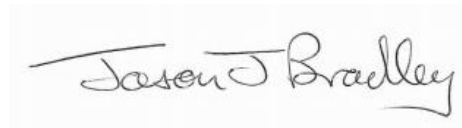

The Quality Policy is reviewed to ensure its continuing suitability of meeting the Company's quality objectives.

By operating an effective Quality Management System which satisfy applicable requirements, and developing a workforce dedicated to quality, the Company can pursue a policy of continual improvement, which is to the benefit of our customers and the Company. This in turn makes our ultimate objective attainable; to become the supplier of choice in the core business sectors the company operates.
